## **Vietnam Evangelical Alliance: Moving Forward Despite Challenges Ahead**

Came into being from September 2020, the Vietnam Evangelical Alliance (VEA) is quite new. Yet we are so glad to be part of the great family of the Asia Evangelical Alliance.

After many years of being conceived, the mission that the churches in VEA are now working together to fulfil is:

*To foster the unity of the Body of Christ, to uphold the identity and be the voice of the Evangelical community, to proclaim the Gospel and to make disciples in order to expand the Kingdom of God and serve the people.*

The current population of Vietnam is nearly 100 million people. The evangelicals comprise only 2 percent or less. We have a vast mission field to aim as evangelism is usually not an easy task practically, culturally, and spiritually in the country. The situation has become even more challenging during the pandemic that we all face worldwide.

We are amid another lockdown due to the 4th wave of covid-19 outbreak. Churches are now entering the 4th month where we cannot meet in person. We are suffering as our people are. Many are sick and many have passed away. Many are losing jobs, especially the people coming from the country to work in the cities.

Please remember to lift us up in your prayers, so that we would be faithful to our Lord, stand firm for our cause, and eventually glorify the Holy Name of our God. We look forward to a day when we can visit and fellowship with you, dear brothers and sisters in the Asia Evangelical Alliance family. ■
